 Address: \_\_\_\_\_ Telephone Day: \_\_\_\_\_  
 Directions to Farm: \_\_\_\_\_ Night: \_\_\_\_\_

| Crop | Variety | Class Seed Planted | Total Acres | Lot # Planted | Previous Crop and Variety |
|------|---------|--------------------|-------------|---------------|---------------------------|
|      |         |                    |             |               |                           |
|      |         |                    |             |               |                           |
|      |         |                    |             |               |                           |
|      |         |                    |             |               |                           |
|      |         |                    |             |               |                           |
|      |         |                    |             |               |                           |
|      |         |                    |             |               |                           |
|      |         |                    |             |               |                           |
|      |         |                    |             |               |                           |
|      |         |                    |             |               |                           |

Has each of the above crop fields met land history requirements as specified in the Virginia Seed Certification Standards?    \_\_\_Yes    \_\_\_ No

### SUBMIT WITH APPLICATION

1. A Foundation or Registered tag from each seed lot planted.
2. Copy of purchase invoice showing variety, Lot No., quantity, and class of seed planted.
3. Inspection fees. Prepayment required with application unless applicant has an established current account. (See schedule on back.)
4. Annual membership: \$10.00, if not previously paid.

I hereby apply for membership in the Virginia Crop Improvement Association for the current year and for inspection of the crop(s) listed on this application. I understand and agree to abide by the Rules and Regulations of the VCIA relative to Certification of the crop(s) listed above. Also, I confirm that the entire acreage listed above was planted with seed represented by tags and purchase invoices submitted with this application.

I understand that all Certification seed sold either to neighbors or anyone else, must be tagged and properly sealed according to Virginia regulations. I understand that my membership may be suspended or terminated by the VCIA Board of Directors at any time if I violate any provisions of such, or if I engage in practices likely to injure or discredit the Association. I agree to pay all applicable interest charges on any delinquent accounts.

### DO NOT HARVEST BEFORE FIELDS ARE INSPECTED

**I Will:**

- \*Rogue fields to eliminate off-type plants and noxious weeds whose seed are difficult to remove.
- \*Thoroughly clean all harvesting, seed handling, and storage equipment.
- \*Maintain identity of seed from these fields at all times.
- \*Prevent contamination of the seed.
- \*Process, label, and market the seed as prescribed by VCIA rules and regulations.

**I Have:**

- \*Planted an eligible class of Certified seed on eligible land.
- \*Thoroughly cleaned all equipment involved in planting prior to handling Certified seed.
- \*Provided adequate isolation distance.
